## About Dawn Johnson

As a talented artist who enjoys sewing, crafting and quilting Dawn is an Australian digitizer who discovered computerised machine embroidery in 2009 at the age of 71. And just a few years ago Dawn began digitizing her own beautiful artwork.

Having suffered from harmful facial skin cancers, which resulted in major skull-based surgery to reconstruct her face, digitizing her own artwork (*together with her many other talents*) have helped Dawn cope through many trying times.

She is an inspiration to all of us and is now a successful and popular supplier of professionally digitized embroidery designs.

*Before placing your order please be sure to check that the designs you are ordering will fit within the sewing field of your embroidery machine.*

*Design shown is a scanned stitchout from the Aussie Floral Emblem Placemat set*
