

Embroidery

The adomment of fabric with needlework dates back to ancient times.

Embroidery was once considered a sign of wealth and community standing. An embroiderer required amazing skills and of course a great deal of patience.

Thankfully,

modern technology has placed beautiful embroidery within reach of everyone. The patience that was once required with a needle and thread is now replaced by the speed, ease of use and precision of computer controlled embroidery machines.

Even with Today's

high tech world of computer embroidery, nothing can replace the true artistry of the embroidery designer and no other company can offer genuine Swiss Embroidery Designs like Zündt of Switzerland.

We invite you

to join us as we combine the timeless beauty and precision of Swiss Embroidery with the magic of modern computer technology.

What is the Collectors Edition?

Six volumes of the finest embroidery design CDs ever to be released. Each volume has a distinctive but popular theme giving you inspiration to create truly beautiful embroidery for almost any purpose or occasion.

In a World First...

for embroidery, each Adorations CD is a work of art. Using the latest technology, a special transparent CD has been beautifully printed to match the theme of each collection. The first volume is entitled "Rose" so the CD has been printed with a beautiful embroidered rose from the collection. Each subsequent volume features a unique design culminating in a remarkable collection that will never be repeated.

Certificate of Authenticity...

Zündt Adorations is a limited edition Collector's series and as with any collector's series it is important to have a Certificate of Authenticity. Each Certificate will be personally signed by Mr Urban Zündt and provided with the purchase of the complete set of six Adorations Design CDs.

Bonus CD...

Each of the six CD volumes will also include a free bonus Zündt Design CD valued at \$119.95 featuring even more exquisite and unique Swiss Embroidery designs.

Project CD...

To help inspire you even further, each volume of Adorations is accompanied by an exclusive Project CD. The Project CDs are a collaboration of talented embroidery experts from around the world, including Australia, Switzerland and the USA, who have put together a diverse range of easy to follow projects incorporating the designs on all six volumes of the Adorations Collectors CDs. Featuring illustrations, instructions and printable pattern sheets. Each CD includes between 5 to 7 wonderful projects.

The Fine Art of Swiss Embroidery

Dear Friend,

In my hometown Altenrhein, Suisse embroidery has been part of daily life for centuries, and Creating embroidery has been in our family a passion for nearly 100 years. From 1910 until now. (including our uncle my dad and me).

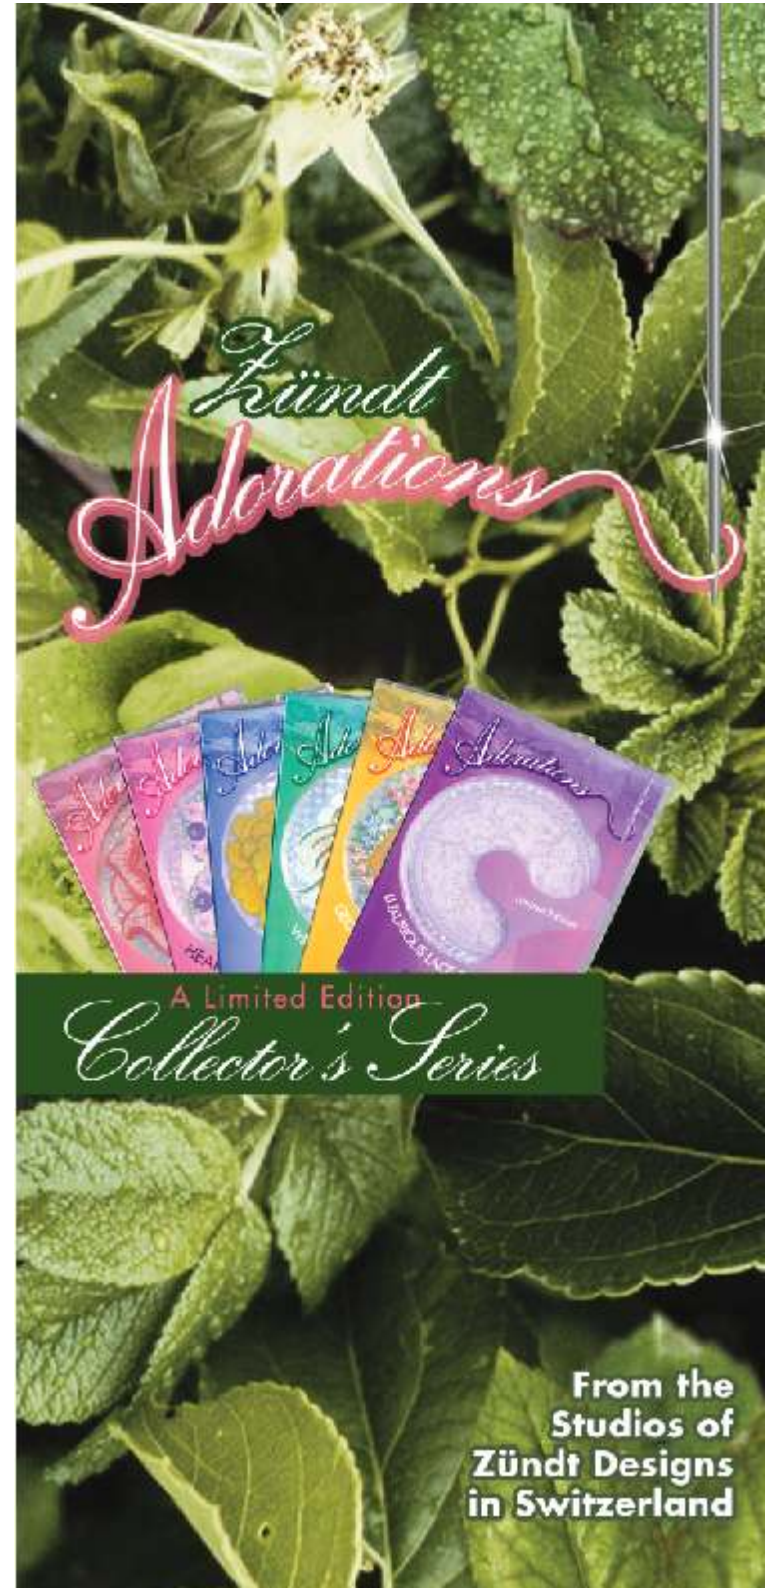

Our modern world we live in, allows us to share this passion with people from all corners of the globe. On behalf of myself and the Zündt design team I wish to extend a personal and warm invitation to our dear friends in Australia to join our fast growing embroidery family.

The Adorations Collectors Series is an exciting new step for us and we hope that you enjoy stitching the designs as much as we enjoy creating them.

We wish you all the very best and a lot of pleasure.
